

Directors' Coordinator RAMM report 2022

I can't believe I have been in this role more than a year already., where does the time go?

In the past year I have messaged the chorus directors several times throughout the year to touch base and am thrilled to hear that the choruses throughout New Zealand are doing so very well considering all the obstacles we are having to deal with. We are blessed to have so many passionate directors leading the way and caring for their members. I understand there are new pressures as we look to return to face-to-face rehearsals or continuing to navigate zoom rehearsal but feel confident that we can get through it together. I know some chapters have experienced decreased membership numbers due not only to normal attrition but by the impact of covid, however I am sure we will be able to rebuild.

I have worked with Kerry to look at some creative ways to bring education to the region even if we can't meet in person and hopefully this will be able to grow even further as things with the New Zealand covid situation start to change. I can't wait to celebrate together at next year's convention in Auckland and meet up in person again. How blessed were we to have had Harmony Aotearoa in 2021!

It continues to be a privilege to represent the directors of our region and I look forward to continuing to do this along with getting to know the directors better throughout my tenure. Thank you for trusting me in this role.
